1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1, 6, 8-14, and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by JP Publication Number 10-109376 Hiroyuki et al. (JPO translation referred to).

Hiroyuki discloses the instantly claimed composition at the abstract; the claims; Detailed Description, sections 0013, 0020, 0021, 0022, and 0028; and the remainder of the document.

4. Claims 2-5, 7, and 15 are objected to as depending from a rejected claim. These claims are otherwise allowable over the prior art which does not teach nor suggest these limitations for use in alkali soluble lubricating films.

5. Claims 17-24 are allowed over the prior art considered because the prior art does not disclose the instantly claimed methods nor provide rationale to modify other prior art to give the instantly claimed methods.
